

## **The Crossing CD-ROM**

The Crossing CD-ROM is a journey from the spiritual Western Cemetery to the functional Walton Street Level Crossing, Hull, UK.

With documentary video, photography, and original music, the project works on various levels, allowing the user to interpret the piece.

A student project dating from 1996, The Crossing CD-ROM still generates interest. For example, in 2002, a short video version of The Crossing was screened at Colchester Arts Centre, UK.

There is a selection of stage prints from the CD-ROM to view at [pjwallace.co.uk](http://pjwallace.co.uk)

Please contact me via the website if you want to view The Crossing CD-ROM.
